GURU PURNIMA

My benevolence to the 'guru'
The eternal soul true,

For his enriching 18 puranas
Or the unfathomable 'vedas'
'Veda Vyasa' true to his name
Stands tall to his fame

A guiding light,
Makes the world bright
That's the teacher's insight
To manifest our hidden might.

With wisdom they lead our path,
And chase the darkness faraway
From ignorance to knowledge
They show us righteous way.

सुभाषितम्

शिक्षिका: प्रत्येकस्य कक्षाकक्षस्य हृदयस्पन्दनम्, कल्पनानां प्रज्वलनं कुर्वन्तः
मनः आकारयन्ति, भविष्यस्य परिवर्तनं कुर्वन्तः : स्वप्नस्य पोषणं च कुर्वन्ति ।

ప్రతి తరగతి గది హృదయ స్పందన ఉపాధ్యాయులు, వారు మనస్సులను రూపొందిస్తారు, ఊహలను రగిలిస్తారు మరియు భవిష్యత్తును మార్చే కలలను పెంచుతారు”.

शिक्षक प्रत्येक कक्षा की धड़कन है, जो मस्तिष्क को आकार देते हैं, कल्पनाओं को प्रज्वलित करते हैं तथा भविष्य को बदलने वाले सपनों को पोषित करते हैं।

Teachers are the heart beat of every class room, shaping minds igniting imaginations and nurturing dream that transform futures

जननी एवं जन्मभूमि स्वर्ग से भी प्रिय हैं। - भगवान श्री राम

'కన్న తల్లి, మాతృభూమి స్వర్ణము కంటే ఉన్నతమైనవి - శ్రీరామచంద్రుడు

SIGNIFICANCE OF TILAK

"Swaraj is my birth right,
And I shall have it"
Said the one against whom
The britishers could not pit

He is called the 'Father'
Of the British unrest
Who stunned the whole world
For his fight for self-respect

The significance of his legacy
Very prominent in Indian history
A strong advocate of 'swaraj'
A dread to the 'British Raj'

Stood tall with his commitment
Had every Indian awestruck
The one and only one -
Lokmanya Bala Gangadhar Tilak.

NOURISH NATURAL HUMAN INTELLIGENCE

As the world moves into next stage of industrial revolution, we have to think of its effect on global employment and education scenarios technologies such as Artificial Intelligence (AI), Quantum computing bio technology and space exploration are no longer the domains of distant imagination. They are definitely reshaping our economics industries and career pathways. In this context Bharat has to prepare its youth to embrace this change with caution. The rise of AI and related technologies definitely quicken the pace of development of nations but some distributing and disruptive findings are coming to the fore. Even-though they are opening new universe of opportunities but it should not at the cost of native and natural human intelligence. Very recent study proves AI is dwelling our cognitive abilities. Brain scans show AI reduces our memory and critical thinking an MIT study has raised serious concern about long term cognitive effects of relaying AI tools like chat GPT using EEG brain scan, researches tracked 54 students over 4 months and found that those

who consistently used chat GPT for writing tasks showed significantly reduced brain activity, memory retention and critical thinking compared to peers who used no tools at all. Dubbed as 'The cognitive cost of using LLMs' (Large Language Models), the study revealed that AI uses not only produced less original work but also struggled to recall their own writing shortly after completing it. While chat GPT offered speed and ease this come at a cost what researches called mental passivity.

We can conclude that AI at best supports human thinking but not a substitute. We should never forget that it is only human intelligence that created artificial Intelligence.

Around the world, at-least 69 countries have already proposed over 1000 AI related policy initiative and legal frameworks to address public concerns. It is not to question usage of AI but it can be judicious with utmost priority for nourishment of human intelligence.
