J C BOSE - THE GENIUS

The man who could hear,
 Plants whispering far and near
 In every sprout and seeding
 Sensed the life pulsating

With an unending quest
 Put all doubts to rest
 Tamed EM waves 'tireless'
 Pioneered communication 'wireless'

From lab to leaf he traversed
 Where light of life was unearthed
 With his inventions pathbreaking
 Left a vast generation inspiring

T.Karthikeya, K.V.Reyansh Varma

सुभाषितम्

परवाच्येषु निपुणः सवी भवति सर्वदा ।
 आत्मवाच्यं न जानीते, जानत्रपि च मुह्यती ॥

ఇతరులను పరిశీలించి వారిలోని దోషాలను
 వేలెత్తి చూపడంలో అందరూ అనుభవజ్ఞులే.
 కానీ, తమను తాము తెల్పుకొనేవారు
 ఎందరు? ఇది తెలిసినప్పటికీ తమను తాము
 సరిచేసుకోరు. సరిచేసుకున్నవారు
 ఉత్తములు.

दूसरों के बारे में बोलने में सभी
 हमेशा ही कुशल होते हैं, पर
 अपने बारे में नहीं जानते हैं,
 यदि जानते भी हों, तो गलत ही
 जानते हैं । जो गलतियों को
 सुधारते हैं वे महान होते हैं।

Pointing out others problems at
 others is easy but introspecting
 at our faults is difficult. Despite
 knowing the fact, we are not
 prone to correct ourselves.
 Those who correct are really
 great.

We speak the truth for our own great upliftment

VIJNANA VIHARA RESIDENTIAL SCHOOL

DIWALI CELEBRATIONS (20.10.2025) :

Effigy of demon Narakasura was burnt as a part of Diwali Celebrations also commemorating the return of Lord Rama from exile. The entire campus was lit by lamps and children burnt crackers, Laxmi puja was also organized on the occasion.

మేము మా అభ్యున్నతి కొరకు సత్యమును పలికెదము

కార్తీక పౌర్ణమి

పౌర్ణమి కాంతుల వెద జల్లెను నింగి
జాబలమ్మ ఒడిలో ఆటలు ఆడి
అమృత క్షీర పానము చేసి
ఆనందము నింపెను 'కోజాగిరి'

శీతల - శాంతుల - శరద్దంబిక
కార్తీకమున దీపాల వేడుకకు
భక్త తరంగాల పవిత్ర మేళ
నదీ స్నానాదులు చేయు వేళ

తుళసీవన పారిమక్కాలలో
దివ్య జ్యోతుల దీపార్జనలు
శివ కేసవార్జన పుణ్య ముహూర్తం
ఇదే జ్ఞాన - వైరాగ్య - దివ్య చైతన్యం

వి. హర్ష వర్ధన్, వై. హరినాద్,
8వ తరగతి

BIRBAL SAHNI

In silent reeds, ancient trees
He unearthed hidden mysteries
Fossils spoke their heart to him
From beneath the layers dim

In rocky beds, in rivers of snow
With an unending quest to know
Turned the stone he stumbled on
To find life did go on and on

Opened new doors of palaeobotany
With his stories of age old symphony
Of the realms hidden in the 'cast'
Of the unknown pages in the past

G.RavichandraTeja, K Siva Ram Teja
Class VIII

SWAMI VIVEKANANDA ON EDUCATION

Education is not just bubbles of words, and mastery over words is not education. True education is the kind of education in which every person can live properly, efficiently in daily life and live in a just way. The education, that allows a person to stand on his own feet in life, is true education. Education is the manifestation of the perfection that already within a person. Religion is the core of education. The all - encompassing all-inclusive nature of Hinduism should be studied by all students to get inner inspiration.

We need life-forming, Man-making, character-building, value-imbibing education.

Education cannot be just bookish. True education is the way in which the manifestation of the thoughts and desires of individuals are within control. Education is not about acquiring information, but about the acquisition of knowledge which can be usefully applied. For good education, the best ideas should be assimilated by the person.

The purpose of entire education should be development of personality on right lines. Education should create creative and intelligent human beings and that is the ultimate goal of

education. Education, with the core of religion in it, helps man to manifest divinity. It is necessary to make students aware that our country produced great men in the past. Both, emotional and constructive content should be part of education. It is through emotional education that self-reliance, a strong sense of public welfare and healthy nationalism will be created. Education should instil self-confidence. The ability to overcome difficulties and live life fruitfully should be created in every student through self-reliance.

More the education is spread among the masses, more the nation progresses. Education is the only way for the upliftment of the masses in India. They should be made aware of their forgotten potential to rise. Poor people should be educated where they work.

Textbooks should include stories from Ramayana, Mahabharata and Upanishads. Every Hindu temple should be used as a centre of learning. Students should be nurtured through the sowing of moral values, ideal conduct norms and proper and necessary education.

Technical education is one of the most important means of overcoming poverty and enriching social life in India.
